

# **Class One Weekly Overview of Learning**

## **Autumn Term Week 7 – week beginning 16.10.17**

### **English**

This final week we will be focusing on instruction writing. Once we have learned to write instructions we will be following these in order to prepare our picnic. Towards the end of the week the focus will be on speaking and listening and on Friday the children will be writing thank you notes to our visitor.

### **Topic**

This week we will complete our time capsule and put it away until the end of this academic year. With a focus on history the children are going to discover how woolly mammoths once roamed the local area.

### **Maths**

The Maths focus this week is number, securing counting with 1:1 correspondence, addition / subtraction and finding missing numbers by using the inverse operation.

### **Science**

Pets will be our focus this week. We are lucky to have some older students who volunteer and support the children with their Science learning.
