

Forest School Update

Early Years Team

TERM 1 - We have really enjoyed the first few sessions of Forest School led by Donna Kowalski.

This week we were very excited to continue building the den started last week. We went bug hunting and found lots of interesting insects. The children enjoyed making woodland crowns, which looked fantastic and really enjoyed foraging for all the artefacts to decorate them with.

It's been lovely seeing how the woods are changing through the season, there were certainly a lot more leaves on the ground this week!

We finished the afternoon with a cup of hot chocolate, biscuit and stories.

Everyone is excited to find out what we will be doing next week.
