

Class One Weekly Overview of Learning

Autumn Term 2 Week 5 – week beginning 27.11.17

Year 2 Hill End information meeting on Tuesday, straight after school.

English

We are incredibly lucky this week to have James Carter visit our school on Monday. After an introductory session in the hall we will be taking part in a workshop later in the day. We will also be writing across the curriculum learning about St Andrew and of course the Christmas Production continues.

Topic / Science

This week we should complete our wind socks ready to try outside to determine the direction of the wind.

Maths

This week we will be applying our maths learning and answering quiz questions. We will focus on measures and reading scales in order to weigh ingredients for our Christmas cakes which we are making next week.
