

Class One Weekly Overview of Learning

Spring Term 3 Week 3 – week beginning 22.1.18

English

‘A Place to Call Home’ – innovation

This week we will begin to think about making a change to the original text in order to make stories of our own. We are also learning how to draft and re-draft our work - just like Austin’s butterfly!

Please keep reading with your child, 5-10 minutes each night has a huge impact on confidence. Try to involve them in book talk and enjoy that special time together.

Maths

This week we are focusing on multiplication and the concept of ‘groups of’. Year 1 will begin to understand this as repeated addition and Year 2 will use their knowledge of the commutative law to take part in their own personal KS1 Times Table Challenges. I would also like to create an array display in the classroom so if you have any examples of arrays in your recycling please send them in – egg boxes are a wonderful example!

Topic / History / Art / D&T

Thank you to the parents and grandparent that helped last Friday afternoon. I would like to continue with this again this Friday afternoon so if anyone is available to help please come and see me.
