

Class One Weekly Overview of Learning
Spring Term 5 Week 3 – week beginning 30.4.18
Monday – Tennis Festival at Bartholomew School, Eynsham

English

We are enjoying using the text *The Story Machine* by Tom McLaughlin as a starting point for our own English learning. This week we will be focusing on writing story openings, verbally re-telling the story and writing a book review.

Maths

This week we are focusing on quickly and efficiently adding and subtracting 10s and then 11s and 9s. Partitioning numbers will also be explored as an efficient strategy for doubling and halving.

Science – Use of Everyday Materials: Exploring changes

We are exploring the properties of water by looking at puddles! I'm sure that our British weather will provide us with plenty of examples.

Geography

We are using maps and globes this week to locate the United Kingdom and then Africa and Uganda in preparation of my visit towards the end of May.
