

Parent Overview - Week 2 Term 5

Dear Parents,

After a fantastic science fair on Friday we are starting the week by allowing the children to show and discuss the amazing work they produced for the fair. Thank you to those parents who supported their children with this work and those of you who joined us on Friday afternoon at the fair.

The foundation children will be continuing our theme of castles by listening to another story about castles and working towards a Big Write at the end of the week. They will also continue with their individual reading and guided reading. We will also continue to work on tricky words in phonics. Our maths will involve counting to 100, doubling numbers, estimating and bonds to ten.

The bunnies will continue to work on writing their names. The colour of the week is blue, the letter is 'S' and the number of the week is 3.

There will be a lot of construction work going on in our classroom this week as the tower is being made into a castle and there will be a pirate ship constructed in our outdoor area.
