

~ Foundation Stage~

Summer 1 Week 1

Welcome back! We hope you all had a lovely Easter holiday.

Please remember it is the Science Fayre on Friday, so if you collected any signs of Spring over the holidays, please bring them into school as soon as you can so we can get them ready for the fayre!

Understanding the World:

We have a really exciting term ahead of us. Our new topic is all about Castles, Knights and Princesses' *'Who is the King of the Castle?'* There will be lots of exciting fact finding, Arts and Design, ICT and will end in a fantastic WOW!

Homework

In preparation for the foundation children moving to Year 1 in September, we will be starting to send home some homework. Please look out for a letter this week, explaining a little more. We have also changed the way you can change your child's reading book if they have finished it. This will also be detailed in the letter

Foundation

Phonics: This week we will recap the phonemes we have learnt so far and learning a new phoneme **ure**. Children will also be learning the tricky word **they**

Please encourage your child to sit down for their morning focused activity when they come into class as this prepares them for the day.

Maths: Place Value – making teen numbers/1 more and 1 less

We will be ordering numbers to 20, concentrating on teen numbers and how they are made (tens and units) We will also be looking at 1 more and 1 less

Bunnies

N2 - those *starting Foundation in September*. We will continue to practise blending sounds oral ready for reading in September! We have also started some name writing with them on a daily basis. They are really keen to do this which is great! This week we will look at recognising and ordering numbers to 10.

N1- This week children will be focusing on a colour (yellow) a letter (a) and a number (3) for the week. They will be hunting around school for these items to make a little display in class. They will also be talking about their holiday news, singing some songs and playing some games on the playground
