

Class One Weekly Overview of Learning
Summer Term 5 Week 5 – week beginning 14.5.18

HILL END 17.5.18–18.5.18

Day trip for Year 1, overnight residential for Year 2

Please check our class web page as I will endeavour to put up photos providing I have internet connection.

English

Our focus text is The Gingerbread Man. We will use the structure of this story to innovate and create our own versions. This is also in preparation for our termly baking which I have planned and will hopefully take place next week when I am visiting Uganda for the opening of our sister school.

Maths

Shape and Geometry are our focus and finding shapes in the world around us.

Science

Lots of Science will take place this week with our trip to Hill End. I have various activities planned that include orienteering (Maths) / reading maps (Geography) / the natural environment and identification of plants and trees / habitats (Science). I know that the children (and adults) are really looking forward to this trip, if you have any questions or queries please don't hesitate to come and see me.
