

~ Foundation Stage~

Summer 1 Week 3

Understanding the World:

This week we will be fact finding. We will be looking at the different famous people who have lived in Castles and make a class fact book. We will also have fun making some tin foil knights. The children are really enjoying this topic so far!

Homework

Thank you for all the hard work with the homework...keep it up!

Foundation Phonics: This week we will recap the phonemes we have learnt so far and all of the tricky words. We will focus on using these in our writing

Maths: 2D and 3D Shapes

This week we will focus on common 2D and 3D shapes, looking at those that are flat and those that are solid. Children will also look at the properties of these shapes and whether they are symmetrical.

Bunnies

N2 - those *starting Foundation in September*. We will continue to practise blending sounds orally; games like I spy are great for initial sounds. We will also be looking at 2D shapes and spot them around the school.

N1- This week children will be focusing on a colour (red) a letter (t) and a number (4) for the week. Children will have great fun playing parachute games and playing together in the outside area, noticing what is happening in our garden.
