

From Crops to Shops
Owl Class
Summer 1 2021

Key Areas of Learning

As **Geographers** we will be learning about **Global Trade**. We will be thinking about how trade has changed over time to become less local and increasingly distanced. We will be learning key terminology and will be considering how the physical and human geography of countries affect what those countries import and export, including their highest-value export. We will think about the three stages of production and which types of economies focus on mainly primary production or mainly secondary and tertiary production. We will then move on to consider the money received by the producers of raw materials. We will learn about Fairtrade and consider whether we should be paying more for our products.

Through all this we will be developing our **geographical skills** as we use maps, atlases, globes and Google Earth to locate countries and climate zones and plot trade routes.

English

In English this term, we will focus on re-visiting some text types from earlier in the year - a newspaper report, a book review and a balanced argument. We will also look at writing a formal letter. We will be using *Greenling* by Levi Pinfold as the inspiration for some of our writing and will be writing our own modern fable.. In punctuation, we will look at the use of semi-colons, colons

Maths

The main focus this term will be to ensure that all children are 'ready-to-progress' to their next year group.

In Year 5 we will be recapping factors, decimal and fraction equivalents, converting units and rounding. In Year 6 we will be recapping calculating percentages of amounts and will learn about solving problems

RE

Our question this term is, "Can we know what God is like?" We will look at Sikhism and Christianity in particular and see what they have to say about what God is like. We will be thinking about what our views are on whether or not we can know God.

PSHE

This term we will consider our Dreams and Goals and what this may look like as adults with jobs. We will consider the salaries of different jobs and appreciate the contributions may by people in different jobs.

PE

In PE this term we will focus on two summer sports: Rounders and Athletics.

We will improve our striking, running, throwing and catching skills and build team work.

Science

This term we will be learning about Living things and their Habitats. We will dissect flowers and attempt to grow new plants from existing ones. We will set up our own habitat and try and raise.

Music

This term all our learning is focused around one song: Dancing in the Street by Martha and the Vandellas - a Motown song from the 1960s. We will learn about the tempo, dynamics and style of this music. We will learn to identify different

DT

This term we will be making a cross-stitch bookmark. We will learn to thread a needle, sew a cross stitch and create and implement a design.

Computing

We will learn about file organisation and management

Languages

We will build on what we have learned in French and be comparing known French and English vocabulary with other languages. We will identify
