

Class One Weekly Overview of Learning

Spring Term 4 Week 6 – week beginning 26.3.18

English / R.E.

Our English focus this week will be cross curricular with R.E. as we will be learning to re-tell The Easter Story. The children have already completed their story maps and will be using these in order to write the story in detail. They will be learning the importance of starting sentences in different ways and using the grammar and punctuation that we have learned so far this year.

Maths

We have fun Easter Maths trails to follow this week. The children will need to use a range of mathematical skills and strategies in order to complete the trails. Look out for a times table log in so that the children are able to enjoy Maths learning over the Easter holidays, these will be sent home via being stuck in the front of reading journals. Please come and see me if you need further details.

D & T

As you are all aware I always incorporate a cooking project each term. This term, with the help of a very able parent, we will be making Easter cupcakes – We hope you enjoy them!

Science / Art

This will be our last chance to capture drawings of our growing seedlings at school. Look out for these which will be sent home on Wednesday. If your child would like to keep a diary at home in order to record growth over the Easter holiday I would love to see them at the start of Term 5.
