

Squirrel Class Weekly Overview of Learning

Spring Term 4 Week 3 – week beginning 11.3.19

SCIENCE WEEK

English

Continuing to use the text, The Bog Baby, the children will learn how the mood of a story changes. They will write questions to ask a Bog Baby and some children will be hot seated to play this interesting and exciting character.

Maths

This week is all about money, recognising coins, making amounts and giving change. We will have a pretend class shop run by the children.

Science

As this week is Science week I have planned a fun Science investigation for each day. I hope that the children will share these with you but if not please ask them!

Art

We are learning about the American artist Jackson Pollock and will produce our own paintings in this style (weather permitting – this needs to be an outside activity!)
